

2006 NDMS Conference  
Logistics Training  
Classroom A  
Saturday

- |             |                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 0800 - 0815 | Welcome (Mary Ann Veitch)                                                                                                                                                                                                                                                                                                                                                       |
| 0815 - 1000 | <p>Logistics Overview (Rebecca Patrick &amp; Tedd Winneberger)</p> <p>This is a general overview of the logistics section and what they have to offer. This section will also cover the logistics ICS structure and how it differs from operations. Also we will cover an overview of the multiple Logistics Centers and how specific centers can support the NDMS mission.</p> |
| 1000 - 1100 | <p>Acquisitions (Rebecca Patrick)</p> <p>During this time we will cover logistics acquisitions strategies for 2006 hurricane season. You will be presented with information on the processes that Logistics are putting in place to streamline the acquisition process</p>                                                                                                      |
| 1100 - 1200 | <p>NDMS and ERT/JFO Logistics (Mary Ann Veitch, Dick Harrington)</p> <p>Here we will examine how NDMS interacts with the Logistics Section of the Emergency Response Team/Joint Field Office.</p>                                                                                                                                                                               |
| 1200 - 1300 | Lunch                                                                                                                                                                                                                                                                                                                                                                           |
| 1300 - 1800 | <p>Custodial Officer Training (Pam Gordon)</p> <p>This course will provide designated Custodial Officers with the knowledge and resources to professionally and accurately fulfill their responsibilities for effective property management. This class will also discuss the Logistics Information Management System (LIMS) and how it can be used to your benefit.</p>        |
